

Friend of the Year!

Catalyst Science Discovery Centre is thrilled to congratulate Mr Bob Roach who has been honoured with the “Friend of the Year” Award for 2015. The Friends of Catalyst organisation was formed in 1987 to support Catalyst and each year a member of the Friends is honoured in this way.

Presenting the award, Catalyst Chairman Bryan Davies said “The Staff and Trustees would like to thank Bob for his hard work and dedication to the Friends of Catalyst Group over the past few years. He is a committed member of the Friends Council, he arranges the popular, monthly SciBar meetings and we wanted to recognise his hard work with this award.”

Receiving the award, Bob Roach said “Setting up and running the SciBar has taken quite some time but it has been interesting and satisfying. The scientists I have approached about being a speaker have invariably been happy to accept the invitation and the audience, both those with a scientific background and those without, have clearly appreciated the content of the talks and the range of topics covered”.

SciBar is a monthly gathering for people with inquiring minds. It isn't a lecture, it's a short (30-40 minute) talk between a scientist and the audience followed by discussion all over a beer. Science in a bar! Widnes SciBar runs at 7.30pm on the second Wednesday of every month at the Hillcrest Hotel in Widnes. If you have a general interest in science, then it's a good place to learn a bit more or to ask the questions you've always wanted answered.
